25-Feb-08	GERMANY	No levies	1,28 €/device applies only to MP3 player with recording function but WITHOUT internal storage. RISK: MP3 player without line-in function: There is a new decision of the arbitral court on MP3 players, that MP3 players with no line-in function (= no PC-independent recording function) shall not be considered as "recording-device", but as "storage medium". This would result in completely different calculation for tariffs for MP3 players. It won't be a flat rate any more, but an increasing tariffs based on the capacity of a device. 0,0614 EUR per play hour (1 hour = 64 MB).	2,56 €/device 1,28 €/device applies only to MP3 player with recording function but WITHOUT internal storage.
