Hitachi Data Systems develops and delivers Services Oriented Storage Solutions, including virtualized tiered storage, to maximize each customer's return on investment and minimize risk. These solutions align IT with business objectives, overcoming such challenges as business continuity, disaster recovery, data lifecycle management, and storage consolidation, while simplifying IT infrastructures.

Solution components include a full range of storage platforms, tailored to meet the needs and budgets of organizations of all sizes that include the Universal Storage Platform family, Adaptable or Workgroup Modular Storage models and Simple Modular Storage, all complemented by Hitachi Storage Management software. Global Solution Services combines it all with consulting and implementation services.

With approximately 3,400 employees, Hitachi Data Systems conducts business through direct and indirect channels in the public, government, and private sectors in over 170 countries and regions. For more information please visit: www.hds.com.
